

No Shoe Policy

Here at Kids Inn Child Care Center, we strive to keep the children's wellbeing and safety our number one priority. For the children of our center to be able to explore and play safely, we have created this No Outdoor Shoes Policy.

Policy

- We will prevent contamination from coming into our center by removing or covering all outdoor shoes. This policy includes staff, children, parents, and visitors.
- We will prevent injury to the children in our care by staff, parents, and visitors by treading on fingers and toes with shoes on.

Procedures

- Staff will remove shoes before entering the "childcare area." Their outside shoes will be left at the check-in station and replaced with soft shoes.
- Visitors will remove their shoes or be provided shoe covers when entering the "childcare area."
- Parents will remove children's shoes at check-in. The shoes will be stored in a special cabinet located at the check-in area.
- Parents can bring indoor shoes/slippers for their children.

Thank you for helping us keep our environment clean and safe.
